"Whatever proceed directly from the pen of Alexander Hamilton must ever be considered of great authority in American affairs. As a patriot, and one of the founders and establishers of the Republic, he is second only to Washington. In these volumes we become aware how intimate was the relation between Washington and Hamilton, and how important was the agency of the latter during the Revolution. His services at a later period will come under notice in the future volumes."

THE TIN TRUMPET; HEADS AND TAILS FOR THE WISE AND WAGGISH

A new American Edition with Alterations and Addions.

The "TIN TRUMPET," by the late Paul Chatfield, M. D., edited by Jefferson Sauders eag, was first published in London in the year 1836, was immediately republished in this country, but owing to the fact that much of its matter was of purely E. glish, local and temporary interest, referring to the political don it has year as an array interest, referring to the political and religious squabbles of the times, the success of the work here was but temperary, and it has long been entitledy out of print; it contained, however, a sufficient quantity of wir and wisdom, original and selected, to make its resuscitation at this time appear desirable. The American Editor, to whom was intrusted the office of preparing it for republication, has thought fit, while pruning the original of all tots appeared superanuasted and of no present and lasting interest, to embody with what remained such selections from his Common Place Book, as appeared to him to come legitimately within the design of the author. The original plan of the book—an alphabetically arranged collection of the wit and wisdom of many of the best writers, ancient and modern—has not been claused. Such as it now is, the book is committed to the American public, with the belief that while it will become a mime of easy quotations to many of our ready writers, it will serve yet more to which away pleasantly and not unprofitably a Summer afternoon of Wenter evening to the general reader.

In THE TIN TRUMPET, the melanchely Jacques and the motely Touchstone go hand in hand together. "Solid Chanks of Wiadom" are garms with the wildest flowers of wit-making it a book to be gravely consulted for instruction, or trippingly turned over for entertainment, with equal vesson. Abounding in the food of "sweet and bitter fancy," it is a volume that, tibble at it as often as you may, there will still be many a wholesome and agreeable morsel left. You may read it through in a day, but it will last your thoughtiness a fifetime.

A BRILLIANT NOVEL. We shall publish June 1:

SEACLIFF;

MYSTERY OF THE WESTERVELTS.
By J. W. DEFOREST,
Author of "Oriental Acquaintance," "European Acquaintance,"
&c., &c.

This is a story of American Life, embracing some features of society and traits of character that are as new as they are striking and natural. The personages introduced are very few in number; and the listerest centres in the family upon whom the hero makes a call, in the first chapter. The piot is remarkable for its ingenious simplicity. The reader's curnoity is sroused at the outset by the appearance of a mystery. Each step in the development of the story seems about to disclose the dreadful secret; but the true solution will not be guessed, even by the most investerate readers of fiction, until the catastrophe comes. The style of the narration is full of spirit, and the various dramatis persons are fuely sketched and contrasted.

SEACLIFF will be, without question, the most fascinating novel of the season. novel of the season.
